How to complete course registration by entering authorization code

- If you fail to enroll in any course during the online selection stages, you can still try and ask your instructor for an authorization code.
- You may also find [this video guide](#) helpful 😊

Go to the first class to meet the instructor, talk to him/her, and ask for an authorization code to complete registration. Most instructors are more than happy to help international students.

NTU General Chinese Courses |

- Those who want to take the courses must sit the placement test on **August 31, 2024.**

*** Details will be provided via email from NTU Plus Academy .*

- General Chinese Courses can only be added by NTU staff after students submit the registration sheet on the day of the placement test. Students should confirm their registration results on the online course selection system one week after the placement test.

- Information about the courses:

<https://oia.ntu.edu.tw/en/current-students/mandarin-for-international-students-o4jx/about-1i5v>

Confirmation of course selection results

- Confirmation should be done during the 4th week after classes begin.
- If students fail to confirm the results of course selection at this stage, the computer records in the System of the Office of Academic Affairs will be considered as the final results. After that, no appeal for remedy will be accepted, even if there are mistakes in the course selection.
- During September 18- November 22, you will have the chance to withdraw from ONE course, and that withdrawal will be recorded on your final transcript.
- Please check your NTU email box regularly in order not to miss any important messages from the instructors of the courses you already selected (ID and password are the same as the one you use to select courses).
- If any messages sent by the university's divisions are in Chinese only and you feel what you get from Google Translate may be incoherent or inaccurate, please feel free to ask us for help.
